## WORK EXPERIENCE

---

### Aether Enterprise Application LLP

Software Engineer

Dec 2022 - Present

- Spearheaded the development and maintenance of cross-platform mobile applications using Flutter, leveraging expertise in mobile app development to drive project success.
- Collaborated closely with design and product teams to deliver user-friendly, high-performance, and visually appealing applications, fostering a culture of effective communication and teamwork.
- Wrote clean, maintainable, and efficient code while implementing state management solutions using BLoC and MVVM, ensuring scalability, reliability, and improved app maintainability.
- Integrated RESTful APIs and third-party libraries to extend application functionalities, demonstrating proficiency in API integration and software development.
- Implemented version control using Git, streamlining collaboration and code management processes, and ensuring seamless tracking and management of code changes.
- Utilized SQL queries to manage and manipulate data within the application, enhancing data handling and storage capabilities, and ensuring accurate and efficient data management.
- Implemented Firebase for real-time notification and push notifications, enhancing user engagement through timely alerts and updates, and driving user retention and loyalty.
- Achieved successful deployment of apps on the Apple AppStore and Google Play Store, ensuring seamless user access and download, and driving business growth through effective app distribution.

### Persistent Systems Ltd

Intern

Feb 2022 - July 2022

- Successfully completed training in web development technologies, programming, and version control systems (Git).

## PROJECTS

---

### B2B Loan Origination System App

- Developed a cross-platform loan application app using Flutter, streamlining the loan application process from submission to approval.
- Designed and implemented user registration, loan submission, and approval workflows, enhancing the overall user experience.
- Provided ongoing support, addressing user issues and ensuring app stability and performance.
- Implemented Face & OTP-based E-KYC Verification using Aadhar, enhancing the security and authenticity of the loan application process.

### B2B Loan Collection System App

- Developed a Loan Collection System app using Flutter from the ground up.
- Implemented key features, including payment receipt generation, document uploads, and approval workflows.
- Integrated Google Maps, MapMyIndia, and real-time location tracking for enhanced geolocation services.
- Implemented encryption protocols to secure sensitive data storage and transmission.
- Implemented Microsoft Authentication (MSAL) for sign-in in the Mobile App.

### B2C Flutter Real Estate App

- Collaborated with the team to develop a real estate application and design its architecture to meet client requirements.
- Gathered client needs and created a custom Flutter plugin for seamless interaction with IoT devices. Enabled smooth processes for renting, selling, and buying properties while integrating smart devices to enhance security.

### B2C Retail Partner Portal

- Retail Partner Portal is a dynamic mobile application being used by product vendors (dealers) and Sales managers (zonalmanager, regional manager, ASM, admin, etc) all over the country to purchase, sell, activate, and support various antivirus products. Portal is now live all over India with 30,000 plus dealers.
- The Application contains user based dynamic User Interface with the features like Dealer and Admin Dashboard, Purchases, Dealer KYC, Complaint Chat, Dealer Management, Online Activation, Online Renewal

## EDUCATION

---

### Rajarshi Shahu College of Engineering, Pune

Bachelor of Engineering - 9.63

June 2018 - May 2022

## SKILLS

---

Languages: Java, Dart, XML

Framework: Flutter

Database /Tech-Stack/Tools: SQL, Firebase, Postman, Android Studio, VS Code, xCode, App Store, Play Store

Version Control: Gitlab, Github, Tortoise SVN ☑

## AWARD

---

Recipient of the "**Performer of the Year**" award from the client for effectively managing client interactions and ensuring seamless project execution.
